

Truckee SnowBotics

April 2, 2026

The Truckee FTC Snowbotics team #32587 is a robotics club running at Tahoe-Truckee High School. Our team consists of 8th - 12th graders from the TTUSD district, and we participate annually in the nationwide FIRST Tech Challenge. All members of Snowbotics take part in designing and developing the robot. Members learn and use engineering skills to design and program the robot, along with operating the robot and other roles. During the FTC season (September - April), the team develops a robot that must complete a certain set of tasks, and we compete against other FTC teams from other schools. We are in the Northern Nevada bracket, and we often compete with teams from Reno, North and South Lake Tahoe, and others. The world championship this coming season will be hosted in Las Vegas around April 2027. More information here: snowbotics.org

The Snowbotics team is looking for financial sponsors for the 2026 - 2027 season. All funds raised during the season will go towards robot development and parts, competition and travel fees, league registrations, training, and maintaining the club. During the offseason, funds are used to train new and existing members on design and development, club maintenance, and new tools. With your help, we will be able to provide more opportunities for the new generation of young engineers to join and for the team to prosper

You may also choose to donate anonymously, or without public recognition, if desired. We would love to have this year's sponsorships in place by **October 2026** in order to maximize the benefits for everyone. However, if you do miss this deadline, there are still many benefits available!

Lastly, we are always working to build our support network. If you know of a business or family that would be interested in our cause and supporting our program, please feel free to pass these forms along or contact us at: contact@snowbotics.org

Thank you for your generosity and willingness to support our team!

Gratefully,

Truckee Snowbotics

We are grateful for your support!

Please contact us for any questions or concerns through our website: snowbotics.org or email us at: contact@snowbotics.org

Truckee Snowbotics is fiscally sponsored by Hack Club, a 501(c)(3) nonprofit organization recognized by the IRS (EIN: 81-2908499). Donations made to the team are tax-deductible to the full extent permitted by law.

Truckee FTC Snowbotics is an affiliate of Hack Club, which is a 501(c)(3) nonprofit who handles our payment processing, and 100% of donations made through Hack Club go to Snowbotics. At request, Snowbotics will provide all forms of documentation and receipts.

All sponsorship payments processed through Hack Club via the website and check are tax-deductible. Truckee Snowbotics also accepts other forms of donation that will not qualify for tax-deduction. Anonymous donations are accepted.

You can submit this form in-person, or email:

contact@snowbotics.org

You can complete your payment immediately at our website: snowbotics.org or through Hack Club: hcb.hackclub.com/donations/start/truckee-snowbotics

Once you have submitted the form, we will contact you with more information regarding preferences, logo, etc. If you have an urgent question or concern, contact the Snowbotics faculty advisor Maura Hoff at (773) 859-0333.
