Truckee SnowBotics

April 1, 2026

The Truckee FTC Snowbotics team #32587 is a robotics club running under Tahoe-Truckee High School. Our team consists of 9th - 12th graders and 8th graders from the TTUSD district, where we participate in the nationwide FIRST Tech Challenge annually. All members of Snowbotics take part in designing and developing the robot. Members learn and use engineering skills to design and program the robot, along with operating the robot and many other roles. During the FTC season (September - January), the team develops a robot that must complete a certain set of tasks, and competitions are held between other FTC teams from other schools. We are in the Northern Nevada bracket, and we often compete with teams from Reno, North and South Lake Tahoe, and others. The world championship this coming season will be hosted in Las Vegas around April 2027. More information here: https://snowbotics.org/

The Snowbotics team is looking for financial sponsors for the 2026 - 2027 FTC season. All funds raised during the season will go towards robot development and parts, competition and travel fees, training, and maintaining the club. During the offseason, funds are used to train new and existing members on design and development, club maintenance, and new tools. With new funding from sponsors, we will be able to provide more opportunities for students to join and for the team to grow.

You may also choose to donate anonymously, or without public recognition, if desired. We would love to have this year's sponsorships in place by **September 2026** in order to maximize the benefits for everyone. However, if you do miss this deadline, there are still many benefits available!

Lastly, we are always working to build our support network. If you know of a business or family that would be interested in our cause and supporting our program, please feel free to pass these forms along or contact us at: ths@snowbotics.org

Thank you for your generosity and willingness to support our team!

Gratefully,

Truckee Snowbotics

We are grateful for your support!

Please contact us for any questions or concerns through our website: snowbotics.org or email us at: ths@snowbotics.org

Truckee Snowbotics is fiscally sponsored by Hack Club, a 501(c)(3) nonprofit organization recognized by the IRS (EIN: 81-2908499). Donations made to the team are tax-deductible to the full extent permitted by law.

Truckee High School– Truckee FTC Snowbotics
